

PELTECH LLC

DATA SERVICES

PelTech offers data recovery and destruction services. A signed waiver is required before starting. While we make every effort to recover data, success is not guaranteed. Data destruction is time-consuming and requires bringing the device back to our office for completion. Ask us about our Storage Donation discount if you're willing to part with your storage device!

Data Backup: We will back up your data by first running an antivirus scan to ensure it's safe. Then, we'll transfer your files to a new storage device, which can be an external hard drive, thumb drive, or internal HDD/SSD. For system drives under 1TB, we charge \$19.99 per hour; for drives over 1TB, the rate is \$29.99 per hour. A storage device must be purchased from our shop.

Data Recovery: Our specialists evaluate your storage to assess data recovery feasibility. While success isn't guaranteed, our technicians will attempt recovery using specialized tools. A signed waiver is required. The service costs \$25/hr, capped at 6 hours.

Data Migration: We offer data transfer services at \$25/hr, capped at 5 hours. A signed waiver is required, and hardware must be purchased separately.

Data Destruction: We offer data destruction using the DoD 5220.22-M standard. Pricing depends on the tier and device size, with larger disks taking longer to wipe. Tier 2 is more secure and recommended for sensitive data like financial or legal documents. See the chart below for pricing.

	1TB or Smaller	1TB-8TB	8TB or Larger
Tier 1 Three full wipes	\$24.99/hr	\$49.99/hr	\$149.99/hr
Tier 2 Seven full wipes	\$49.99/hr	\$99.99/hr	\$199.99/hr

Larger drives take longer to wipe.
